

UKIP hypocrite puts Polish workers first

UKIP tout for votes by attacking eastern Europeans, but top UKIP MEP Roger Knapman cheated on British workers by employing cheap POLISH labour to install luxury bathrooms in his £1.2 Million country mansion (below). Knapman started his career at the political trough as a Tory MP under Maggie Thatcher.

The UKIP leader was caught by an undercover Sunday Times journalist boasting that his son’s employment service, Bildar, could supply Polish labourers at half the rate of English workers. He is now UKIP’s MEP on the powerful Civil Liberties Committees in Brussels.

UKIP’s Roger Knapman explains why he puts Polish workers first: “They have a very good work ethic and work so much harder than anyone over here. They are not going to go off and do another job as they are there specifically for you. Many of the workers here just aren’t skilled enough... it’s a 60-hour week... they’re like an army of ants.”

UKIP – like the Tories but richer

Health Service? UKIP Wealth Service!

Ukip say they support the NHS but, when you check the small print of their policy, it's really an **ultra-Tory privatisation** scam designed to create jobs for their boys and **profits for big business**.
UKIP would hand the NHS over to health commissioners (picked through more unwanted elections like with the police) who would have huge budgets of **taxpayers' money** to hand out to their **corporate crony service providers**.

“Stop sick pay for workers”
– Thatcher on Acid

Do YOU want to work 50 hours+ each week with no overtime, sick or holiday pay?
No? Nor does anybody – which is why more and more people are saying ‘No’ to UKIP
“UKIP would scrap most legislation regarding matters such as weekly working hours, holidays, and holiday, overtime, redundancy or sick pay, etc” – UKIP Small Business Policy

UKIP – scrap protection for women

“UKIP would scrap Equality Legislation”
– UKIP Business Manifesto
That means that bosses could go back to paying women LESS for doing exactly the same job as men!

Ukip – Cuts4U

MASSIVE tax handouts for the super rich. Fat cats would see their tax bills slashed from 40% to 25%. That would mean a staggering **£90 Billion a year** in extra government **spending cuts**.
How would UKIP do that?
Monthly bin collections? Toll roads?
Replace unemployment benefit with £15 food vouchers a week?

Immigration
– UKIP’s empty promise

Because voters are sick of immigration, UKIP say they’d stop it. That’s a lie. They’re only against people from Christian Eastern Europe. But they’d let in up to 300,000 Asians and Africans EVERY YEAR – 250,000 to replace Brits who leave, plus 50,000 more with permits to take our jobs.
That’s because UKIP’s big business backers want immigration to keep wages down.

“Mrs. Thatcher was a great inspiration to me personally.”
– Nigel Farage

“We have no problem with Islam.”
– Nigel Farage

UKIP Exposed is run by a group of former Ukip members who found out the hard way that UKIP isn’t a radical, patriotic alternative to the old parties. It’s just a BBC-sponsored safety valve.

We’re sick of seeing UKIP portrayed as a party for ordinary “little people” when in fact it’s a front for big business and the vested interests of City banking sharks. UKIP – like the Tories but richer.
